## Instruction Manual

**DualPower ProLight™**  
Voltage Awareness Device

MODEL 101601-11

The DualPower ProLight™ should be installed indoors or outdoors on or near overhead doors, DC switches, stinger systems, overhead contact wire, third rail, tunnels, and more.

### Installation

- 1 – Mount unit in visible area.
- 2 – Connect 120VAC source to two marked terminal strips in DualPower enclosure. One for each LED light.
- 3 – Connect DC power source (up to 750 VDC Nominal and 1000VDC Max) to marked terminal strip in DPPL enclosure.
