Instruction Manual

120VAC ProLight™
120VAC LED Safety Light
MODEL 101601-1A

The ProLight™ should be installed anywhere a reliable 120VAC LED light is required to maintain high visibility and long lasting service in the most stringent weather and locations

Warning: This device is designed to use in conjunction with very high voltage applications. Improper use is dangerous and could result in injury and/or death. Always wear proper gloves and eye protection prior to use.

Operation

- 1 – Identify AC Power source.
- 2 – Mount the ProLight™ in the area where indication of warning is required.
- 3 – Connect wires to the main 120VAC power source.

Safety Notes

1. Always inspect the unit prior to use. Check the integrity of the wire insulation for nicks or cuts, inspect the unit for any loose parts etc. If any problems are discovered have the unit repaired immediately.
